1. Concept & Elevator Pitch

Elevator Pitch: *Hades meets Singham* — a real-time action roguelike. You are a small-town police constable climbing through 25 floors of corruption, rescuing civilians and collecting warrants to take down the Commissioner.

Core Fantasy: You're a beat cop with a lathi, a revolver, and your wits. Descend from Basti slums to the Commissioner's marble halls. Rescue civilians, seize weapons, serve warrants. Die, return stronger.

Market Gap: Zero Indian-culture action roguelites exist. 1.5B+ Indians hungry for representation + global roguelike fans seeking a fresh setting.

2. Core Game Loop

Per-floor: **Enter** → **Clear** enemies → (Optional) Rescue civilian / Find Warrant → **Stairs** → Descend • **Every 5th:** Boss fight
